ENAC AND ALUMNI NEWS

- Welcome to our new USA members!
 - ❖ Sonja Isabel Schweicker (IATOM Master), Airbus Graduate Qualification Programme.
- Discover The Future of Airports on the website of ENAC Alumni.
- The 2020 State of the Air will be held in Paris next November. The first edition of this event last year was a major success. ENAC Alumni is exploring options to duplicate it outside of France.
- Your membership is important! Please consider becoming a contributing member or do not forget to renew your membership in 2020.

“OPEN MIC”

- The participants to the Q4 2019 call expressed their satisfaction regarding the creation and the development of the U.S. chapter. They gave kudos to its leadership on the actions that have been accomplished so far.
- They confirmed their interest in the ongoing actions, and made suggestions that will be taken into consideration for the 2020 action plan (see “To Do List”).
- They asked if it would make sense to turn the U.S. chapter into a non-for-profit registered in the U.S. The Chair explained that this option was considered in 2016, but was not pursued to keep the administration of the chapter simple for now. However, if we keep growing and start working on more complex operations (e.g. organizing events) a registration on our own could be necessary.
- At the suggestion of the Chair, the participants confirmed the principle of a vote online to let all the members express their opinion on the leadership of the chapter and the 2020 action plan.
